## NAZIS ADOPT U.S. JIM-CROW RAIL SYSTEM

Jewish Citizens**

BERLIN, Jan. 6 — The segregation of Jews traveling in Germany in specially designed and marked railway compartments as is done with members of the Race in southern sections of the United States, was demanded this week by Das Schwarze Korps organ of Adolf Hitler's Elite Guard.

This newspaper's Berlin informant reports that the practice of jim-crowism has already been adopted by the Nazis, though unofficially.

In urging the jim-crow system Das Schwarze Korps stated:

"If the state railways, because of well-considered financial grounds, cannot decide to forbid Jews completely the use of sleepers, then at least they should assign Jews special sections."

Reservations were recommended two days in advance so rail officials would know how much space to assign. In ordinary cars, it is said, special compartments should be labeled for Jews, "just as travelers with dogs may use only those sections assigned to them...By that we do not mean to say anything against gentlemen with dogs."

Turning to asserted precedents for such a step, Das Schwarze Korps said, "In the freest country in the world, where even the president rages against racial discrimination, no citizen of dark color is permitted to travel next to a white person, even if the white is employed as a sewer digger and the Negro is a world boxing champion or otherwise a national hero.

"The democratic example shows us all how we have to solve the problem of traveling foreign Jews."
