GERMANS ADOPT U.S. JIM CROW

HITLER'S PAPER OUTLINES NEW DRIVE ON JEWS

**Specifically Cites Hate
Measure in America
Against Negroes**

Taking a leaf from United States Jim-Crow practices against the Negro, German Nazis plan to Jim-Crow Jews on German railways, Das Schwarze Korps influential weekly organ of Adolf Hitler's Elite Guard announced this week.

The Nazis, in declaring their intentions of Jim-Crowing Jews within the Reich, specifically cited American Jim-Crow customs against its Negro citizens and said:

"For the world's freest country, where even presidents denounce the devilish invention of race consciousness, does not permit its state citizens, with equal rights but a darker hue, to sit, much less sleep, next to a white person, even if the white is only a sewage worker and the black a world boxing champion or other national hero. The colored people will be relentlessly driven by an equally colored conductor into their own rolling kraal."

How to Solve Problem

Continuing, the Nazis declared: "This guaranteed democratic example also shows us how to solve the problem of traveling foreign Jews. In the world's freest country members of despised races are being seated with more or less tender force with their racial comrades, even if they flaunt a British or French citizenship certificate."

According to American Negro leaders, this slap in the face was not unexpected. It was overdue. "How is it," a Harlem leader asked, "the conscience of American religious leaders, government spokesmen, diplomats, editors and writers has been so aroused over the Nazi treatment of its German minority, and at the same time lynching, Jim-Crowism, which is now being used as an example by the Nazis themselves, discrimination in employment, housing, and even the administration of home and job relief, and other forms of social degradation are being practiced against the Negro without much if any expression of moral

indignation by these same leaders?"

Mitchell Jim-Crow

It was recalled that about a year ago, Congressman Arthur Mitchell of Chicago was Jim-crowded while traveling in the South; and quite recently he lost the suit which he filed to obtain redress for the insult suffered by the humiliation.

According to the publication, special car compartments would be labeled "for Jews only, just as travelers with dogs may use only those sections assigned to them. By that we do not mean to say anything against gentlemen with dogs.

The weekly also suggested that all Jews desiring to travel by railway should be compelled to give two days' notice to enable the officials to know in advance the space to be provided for them.
